OFFICE POLICY ON MANAGED CARE INSURANCE COVERAGE

In order to accommodate the needs and requests of our patients, we have enrolled in numerous managed care insurance companies.

While we are pleased to be able to provide this service to you, it is extremely difficult for us to keep track of all of the individual requirements of each insurance plan. Each insurance provider has different rules regarding how often services may be performed, and even more important, where those services may be performed.

Within the same insurance company, the plan coverage can differ depending upon what type of contract your employer has negotiated.

Providing quality medical care for our patients is our primary concern. We are more than willing to provide that care within your insurance contract guidelines if you let us know at EACH office visit, surgery or point of contact what those guidelines are.

Unfortunately, if you do not inform us of any special requirements of your insurance plan and we subsequently order services such as lab work or hospitalizations that are not covered, we or the selected medical facility will have no choice but to ***bill you directly for those charges. Payment for those charges is then your responsibility.***

With your cooperation and help, you should be able to receive all of the benefits offered to you by your insurance plan, and we will be able to concentrate on caring for your child's medical needs.

I have read the above Managed Care Statement. I understand and agree to the above stated policy.
